

# Digital Portfolio

STUDENT NAME: Priyanka K

REGISTER NO AND NMID: 2422k0254 and asbru172422k0254

DEPARTMENT: B.sc(computer science)

COLLEGE: Sri vasavi college (SFW)

UNIVERSITY: Bharathiyar University

# PROJECT TITLE

## PORTFOLIO DESIGN AND LAYOUT

# AGENDA

- 1.Problem Statement
- 2.Project Overview
- 3.End Users
- 4.Tools and Technologies
- 5.Portfolio design and Layout
- 6.Features and Functionality
- 7.Results and Screenshots
- 8.Conclusion
- 9.Github Link

# PROBLEM STATEMENT

## Problem Statement :

A problem statement clearly explains the issue or challenge that your project is going to solve.

It describes what the problem is, why it exists, and why it is important to solve.

It should be:

Clear and specific

Focused on the gap or difficulty

Showing the importance of finding a solution

# PROJECT OVERVIEW

**Project Overview** is a short summary that explains what a project is about.

It usually covers:

Purpose / Goal → Why the project is being done.

Scope → What will be included and what will not.

Deliverables → What results or outputs will be produced.

Timeline → Rough schedule or duration.

Team / Stakeholders → Who is involved

# WHO ARE THE END USERS?

**End users** are the people who will finally use the product, system, or service once it is completed. They are not the developers or testers, but the actual customers or audience who benefit from it.

## 👉 Example cases:

For a Food Delivery App → End users are the customers who order food.

For a School Management System → End users are students, teachers, and parents.

# TOOLS AND TECHNIQUES

**Tools and Techniques** in a project mean the methods and instruments used to complete tasks and achieve project goals.

Tools → The software, applications, or physical resources you use.

👉 **Example:** MS Project, JIRA, GitHub, Excel, Zoom.

Techniques → The methods or approaches you apply to do the work.

👉 **Example:** Brainstorming, Agile methodology, Risk analysis, Flowcharts, Prototyping.

# POTFOLIO DESIGN AND LAYOUT

**Portfolio Design and Layout** means how you arrange and present your information, skills, and work samples in a clear and attractive way.

👉 Simply:

It's the structure + look of your portfolio (fc colors, sections, images, order).

# FEATURES AND FUNCTIONALITY

**Features and Functionality** means the qualities and actions of a product or system.

Features → The special parts or elements it provides. (What it has)

Functionality → The tasks or operations it can perform. (What it does)

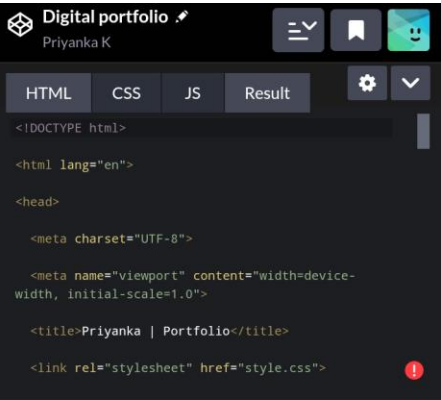

👉 **Example:** In an E-commerce Website

Features → Search bar, Shopping cart, Wishlist.

Functionality → Search for products, Add items to cart, Place an order.

# RESULTS AND SCREENSHOTS

A B.Sc. Computer Science student passionate about learning coding.

## About Me

I have completed my schooling and I am now pursuing **B.Sc. Computer Science**. Currently, I am a student eager to learn and improve my coding skills.

## Skills

Java  
C  
C++

## Portfolio

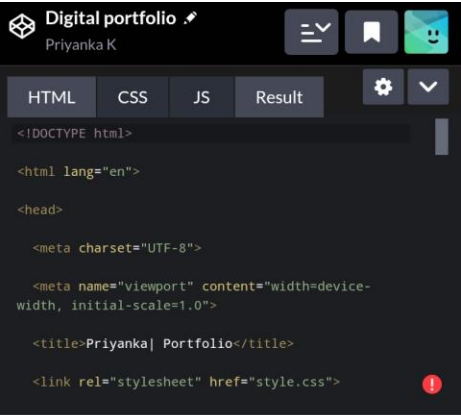

No notable projects yet, but exciting things are coming soon! 🚀
